Proizvodnja prozora i vrata

Doors and windows production

O nama

About us

Pet decenija duga porodična tradicija i bogato iskustvo u obradi drveta, pozicionirali su naše preduzeće na sami vrh ljestvice proizvođača stolarije u regiji. Povjerenje kupaca duže je od pola stoljeća, a mi smo ga gradili polako i oprezno, uvijek nudeći tržištu ono što je najbolje: kvalitet, garanciju, poštivanje rokova izrade...

Pratili smo svjetske trendove u dizajniranju i izradi vrata i prozora, vodeći se maksimalno da vrhunski majstori i u najtvrdem drvetu mogu pronaći dušu. Estetiku i funkcionalnost naših proizvoda, nametnuli smo kao svoj identitet na tržištu proizvođača građevinske stolarije. Zahvaljujući tome, postali smo respektabilan izvoznik u zemlje regiona sa plasmanom od oko 80 % svoje proizvodnje. Međutim, ostali smo u potpunosti odani svojim kupcima u Bosni i Hercegovini, gdje strpljivo gradimo svoju poslovnu mrežu. Izrađujemo proizvode po Vašoj želji, a ukoliko to želite, naši inženjeri predložit će najbolja rješenja za vaš stambeni ili poslovni objekat i dovesti Vašu ideju do pune realizacije, kojom ćete biti zadovoljni.

Dođite po najbolje rješenje!

Five decades long family tradition and rich experience in wood processing have placed us among top doors and windows producers in the region. We have our customers' trust for more than half a century, and we built it slowly and carefully, offering the best for the market: quality, guarantee, meeting deadlines...

We have kept up with the world class designing trends in windows and doors design and making, lead by the principle that top master carpenters can find a soul in the hardest wood. The esthetics and functionality of our products create our identity on the woods and windows market. Thanks to that, we have become a respectable importer into neighboring countries, exporting about 80% of our products. However, we have also been completely loyal to our customers in Bosnia and Herzegovina, where we are building our business network with patience. We are making products on demand, and, if you wish, our engineers will suggest the best solutions for your home or business object, bringing your idea to complete realization and making you satisfied.

Come and get your best solution!

Proizvodno-prodajni kompleks Jafa Jase 4 prostire se na 34.000 m² uz magistralni put Tuzla-Orašje, u naselju Špionica. To nam omogućuje da budemo komunikacijski veoma dobro povezani sa svim većim gradovima u BiH i državama u okruženju. Proizvodni kapaciteti su smješteni na 4.700 m² i omogućavaju značajno proširenje. Posjedujemo modernu tehnologiju za finalnu obradu drveta, te proizvodnju najkvalitetnijih vrata i prozora. Međutim, kao najvažniji segment našeg proizvodnog procesa i kompletne organizacije poslovnog društva, ističemo svoje uposlenike. Stalne edukacije, usavršavanje i predanost poslu, garant su našega kvaliteta i pozicije lidera na regionalnom tržištu.

Predanim radom na razvoju drvnog programa, uspjeli smo stvoriti široku paletu kvalitetnih, originalnih proizvoda. Prozore radimo u programu JJ4-Standard 56, JJ4-Soft 58 i JJ4-Soft 68, a posebno smo ponosni da smo među rijetkima u regionu, koji u svojoj ponudi imaju usvojenu proizvodnju drvo-aluminijum prozora, sa aluminijskim oblogama talijanskog proizvođača Olimpia.

Preduzeće Jafa Jase 4 u ponudi ima vrlo široku paletu ulaznih i sobnih vrata. Kada su u pitanju ulazna vrata, kupac može da izabere između programa 42 mm i 68 mm kao i vrstu drveta (jela/smrča, hrast, meranti...). Raspolažemo i izrazito bogatom ponudom sobnih vrata, program masiv i furnir...

Da bismo upotpunili našu ponudu i bili u stanju ispuniti sve zahtjeve naših kupaca, u proizvodnom programu smo usvojili i PVC stolariju, a u proizvodnji koristimo samo visoko certificirane PVC profile koji zadovoljavaju sve uvjete i standarde važeće u Evropskoj Uniji.

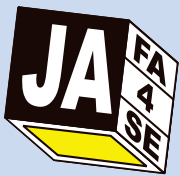

Production and sales complex of Jafa Jase 4 Company covers 34,000m² and it is situated near Tuzla-Orašje freeway, in Špionica. Such position helps us to have a good communicational connection with all larger cities in Bosnia and Herzegovina and in the neighboring countries. The production capacities are situated on 4,700m² with expanding possibilities. We have the cutting edge wood processing and windows and doors production technology. However, the most important segment of our production process and organization are our employees. Constant education, improvement and dedication are a warranty of our quality and leading position on the regional market.

Thanks to our dedicated work in the wood program development, we managed to create a wide line of quality and original products. Our windows are made according to program JJ4-Standard 56, JJ4-Soft 58 and JJ4-Soft 68. We are proud for the offer of wood-aluminum combined windows, coated with aluminum coatings by Italian manufacturer Olimpia.

Jafa Jase 4 offers a wide line of front doors and doors. When the front doors are concerned, a customer can choose between 42mm and 68mm programs and different types of wood (pine tree, juniper-tree, oak, meranti...). We also offer a wide line of doors, programs massive and veneer.

In order to complete our offer and respond to customers' demands, we included the PVC doors and windows in our program, and within our production we use only certified PVC profiles, which meet all conditions and standards valid in EU.
